#### ■ Introduction

ENVIRCO's cleanroom ceiling solution, a 2" Gasket Seal Grid Cleanroom Ceiling System is fabricated using superior materials to provide both a structural grid system and zinc alloy die-castings.

The building block of a cleanroom ceiling grid system is the connection and suspension system. ENVIRCO offers a true, extruded aluminum 2" cleanroom ceiling system. It is the most cost efficient system for cleanroom classes for ISO 8 (Class 100,000) to ISO 5 (Class 100), or any full HEPA coverage application.

ENVIRCO's rod suspended cleanroom ceiling systems share attributes that in combination create a common design platform. Customizing this system to meet your specific needs is easy and worry-free. Call one of our engineers today to discuss options and find the system that best meets your needs.
